Bag or Bagless

Home Size

10,000
Square Feet

Sound Level

59
Decibels*

15 Year Warranty

The model 675-LS offers incredible performance like that typically found in a larger motor system while keeping costs low.

The performance gain however is offset by endurance. Primarily this is because the motor does not use an aluminum chassis like that of the rugged 116765 motor (399 models).

Still the model 675-LS is backed by a 15 year warranty and exceeds performance expectations typically found from a 5.7" diameter motor.

The model 675-LS is designed for homes up to 10,000 square feet.

Model 675-LS

119956 Motor

Part #010018-LSG2

SUCTION		148"
Maximum Airwatts ²		700
Airflow CFM		130
Motor Speed In RPM (at .625" orifice)		27,000
Quiet Construction		✓
Exhaust Muffler		✓
Protective Filter		Mirco-Tex®
Extra Utility Valve (Separate From Unit)		✓
Right or Left Side Intake Install		✓
Dirt Canister Capacity		5 Gal / 19L
Approximate Dimensions		12" x 39"
Lifetime Warranty - Limited Electrical ³		15 yrs

Made In North America

¹Average Sound Level With Exhaust Leading Outdoors ²Please refer to product warranty for complete details.

³Data represents maximum Airwatts within motor tolerances set forth by Ametek/Lamb®. Individual motor data may vary due to normal manufacturing variations, voltage, altitude and household installation.
